ASHOKKUMARNIMMATURI@GMAIL.COM
HYDERABAD, TELANGANA.

SUMMARY

Motivated Java Backend Developer with 1 year of hands-on experience in building and maintaining scalable server-side applications using Core Java, Hibernate, Spring Boot, Microservices and SQL databases. Seeking a challenging role to contribute backend expertise, implement robust business logic, and enhance application performance and reliability.

SKILLS & ABILITIES

Expertise in developing and maintaining backend applications with strong attention to detail and the ability to write clean, structured, and maintainable code.

Proficient in writing efficient business logic, debugging, and optimizing performance

Backend: Core Java, JDBC, Servlets, JSP, Hibernate, Spring Framework, Spring Boot (Proficient), Microservices Architecture, Spring Data JPA, RESTful APIs

Microservices & Cloud Concepts:

Microservices Architecture, REST API Design, Service-to-Service Communication, Basic knowledge of API Gateway, Load Balancing, and Distributed Systems

Frontend: HTML, CSS, JavaScript, React

Databases: MySQL, SQL

Tools: Spring Tool Suite(STS), Eclipse, IntelliJ, VS Code, Git, Maven

Core Concepts: Object-Oriented Programming (OOP), Collections Framework, Exception Handling, Multithreading, MVC Architecture.

Methodologies: Basic understanding of Agile and sprint-based development

EXPERIENCE

July 2025 - Present

Java Backend Developer | Hyderabad, Telangana
Aja Consulting Services

Worked on backend application development using Core Java and Hibernate. Responsible for implementing and testing CRUD operations, writing SQL queries for MySQL databases, and managing data persistence using Hibernate ORM. Applied MVC architecture and handled backend business logic, validations, and exception handling. Actively refactored existing Java code to improve readability and maintainability while working on training and project-based backend modules.

EDUCATION

Bachelor of Technology in Electronics and Communication Engineering

Mahatma Gandhi University, Nalgonda

Studied core subjects including Programming Fundamentals, Database Management Systems, and Software Engineering.

PROJECT

Aja Interview Vault | Full Stack Developer

Tech Stack: Java, Spring Boot, React.js, MySQL, Spring Security (JWT), RESTful APIs, Razorpay, Twilio SDK.

- **Architected and developed** a secure internship portal and interview management platform using **Spring Boot** and **React.js**, streamlining the recruitment lifecycle for both administrators and candidates.
- **Implemented robust security** by integrating **Spring Security with JWT (JSON Web Tokens)** to handle stateless authentication and role-based access control.
- **Integrated third-party payment gateways (Razorpay)** to enable seamless, secure transaction processing for premium subscribers.
- **Automated candidate communication** by leveraging the **Twilio SDK** to trigger real-time SMS notifications and automated voice calls for interview scheduling.
- **Optimized data management** using **Spring Data JPA** and **MySQL**, ensuring high-performance database queries and data integrity across thousands of candidate records.
- **Designed and deployed** an automated **PDF reporting system** using **iText**, generating comprehensive candidate assessment reports upon interview completion.
- **Collaborated on a dynamic, responsive UI** using **React.js** and **Tailwind CSS**, resulting in a 40% improvement in user engagement and portal accessibility.

LEADERSHIP

Capable of managing tasks independently, supporting team goals, and contributing proactive solutions while meeting deadlines effectively.

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
